Sadie is a 16 year old girl who resides in Corbiel, Ontario. She excels academically and plans to attend the Roman School of Management and Business at the University of Toronto. She uses her platform to educate and empower others to take a stand against Global Warming. Caring about the environment has been a part of Sadie's identity since she was little. Pageantry has fulfilled all her hopes and dreams of not only showcasing her beauty, but her passion for the Earth as well. She aspires to do well in all she does, with love. Her life goal is to leave a positive impact on the world by dedicating herself to growing as a person each day. Pageantry helped her find who she was at heart; a girl with passion.
