Subject: Re: East Ferris Public Notice

Hello Linda,

On behalf of the East Ferris Council, I simply wish to acknowledge receipt of your email. For additional information you may want to attend an upcoming meeting organized by residents and with the applicant in attendance that is scheduled for this Thursday at the Corbeil Park Hall.

Regards,
Pauline Rochefort

Hello

I recently saw a notice at the entrance of Champagne Contraction Aggregates and Quarry located near the end of Lavigne Road.

I have been told the current Class B licence is for 20 000 tones of aggregate. According to the notice under Section 2C he is requesting the licence to be upgrade to an Class A licence that he would be able to excavate up to 450,000 tones of aggregate which I TOTALLY DISAGREE WITH

THIS NEEDS TO BE STOPPED

THIS CANNOT BE ALLOWED

AS A resident of East Ferris I totally oppose this application..

The huge increase of dump trucks on our roads will cause significant damage to our roads

To the immediate close residence, its a huge imposition with the blasting air horns, heavy equipment noises. This is a huge concern

There could be long effects of damage to homes and water supply. Im thinking Property value will go down and this is not good for our town

I strongly oppose this application. There is no need for this huge Quarry

The traffic in East Ferris is already out of control and adding a huge amount of dump trucks will destroy the roads with heavy loads needless to say the huge amount of dirt it will leave on our roads

This will increase the traffic from. 22500 trucks to 45000 trucks a year

I strongly oppose this application . There is no need for this type of industry in East Ferris

Concerned East Ferris Citizens

Thanks

Linda Collinassi
