DATE: January 24, 2024

SUBJECT: Appointments to Conservation Ontario Council

Background:

Conservation Ontario is a non-profit association that represents Ontario's 36 Conservation Authorities.

Its core business functions are:

- Policy and Program Development
- Business Development and Partnerships
- Communications
- Education and Training
- Collective Corporate Services
- Government Relations
- Information Management and Research.

Its Vision is:

- Engage Conservation Authorities in matters of common interest and shape effective policy relating to Conservation Authorities.

Its Mission is:

- To promote and continually strengthen a watershed-based conservation coalition in Ontario.

Conservation Ontario is directed by a Council comprised of one voting delegate from each conservation authority. This Council meets four times a year and voting delegates are usually accompanied by their conservation authority's CAO/General Manager.

The Council also elects a six-member Board of Directors who is responsible for governing Conservation Ontario. Conservation Ontario's main source of funding is from levies to each conservation authority supplemented by project funding and contracts.

Analysis:

Conservation Ontario strongly encourages conservation authorities to appoint a member of their Board of Directors as their voting delegate on Conservation Ontario Council. As outlined in NBMCA's updated Administrative By-Law, appointments to Conservation Ontario Council are made annually.

Recommendation:

That the NBMCA appoint the Chair as its voting delegate with the Vice-Chair and CAO acting as alternates to Conservation Ontario Council for 2024.

RECOMMENDED RESOLUTION:

THAT the Board of Directors of the North Bay-Mattawa Conservation Authority appoint the Chair as NBMCA's voting delegate for Conservation Ontario Council for 2024 and that the Vice-Chair and CAO be appointed as first and second alternate respectively.

DATE: January 24, 2024

SUBJECT: Planning and Development Activity, On-site Sewage System (OSS)
and Section 28 Processing Timelines, Year Review 2023

Background:

The following report outlines the Q4 permitting and commenting activity for the Planning and Development and On-site Sewage System programs of NBMCA for the period of October 7, 2023 – December 31, 2023; and the activity over the full year 2023. The purpose of this report is to track activity to maintain reasonable workloads in support of the health and wellness of staff and to mitigate liabilities.

In addition to permit activity, a summary of Section 28 permit processing timelines, as outlined in Conservation Ontario's (CO) "Annual Reporting on Timelines" template is enclosed.

Plan Review Analysis:

Municipal Plan Review activity for the fourth quarter of 2023 showed a gradual decline heading into the winter season. The total number of applications received (189), however, surpassed the activity in 2022 and remained above the long-term average of 150 applications. It is anticipated that planning activity will remain the same or see a slight decline in the upcoming year.

Miscellaneous Inquiries	37	40	118	78	13	16	32	8	69

On-site Sewage System (OSS) Analysis:

Applications received for Q4 were comparable with a slight decrease from last year. 257 substantial completion inspections completed during Q4 and 440 final inspections were carried out.

45 File Review (performance level review) applications were completed during Q4. 2 inspections were carried out for lots that are proposed to be developed, as well as 45 planning proposal applications.

The total number of applications received for 2023 decreased from the previous few years with 457 permits that remain active without substantial completion inspections.

Overall 2024 is expected to be comparable to last year.

Section 28 Analysis:

The number of applications for Section 28 permits was lower this year than in past years. As such, the number of permits issued in 2023 (100) is slightly lower than the 5-year average (2018 to 2022) of 118 permits. General inquiries for properties was slightly higher than normal at 145 inquiries.

The numbers below are from January 1, 2023 to December 31, 2023:

NBMCA – Section 28	Data								
	2019	2020	2021	2022	2023

Section 28 Reporting on Timelines:

Service standards for Section 28 permit applications are specified by the Ministry of Natural Resources and Forestry (MNRF) in the “Policies and Procedures for Conservation Authority Plan Review and Permitting Activities (2010)”. As part of a commitment to improve client service and accountability and increase speed of approvals Conservation Ontario (CO) has created the **Client Service Standards for Conservation Authority Plan and Permit Review** guideline. The guideline recommends new service standards for S.28 approvals, initially focused on high growth CAs. Each year CA’s report to their members and to CO on their Section 28 permit processing timelines.

This explanation outlines how NBMCA will categorize our permits within those outlined in the Annual Reporting on Timelines Template. NBMCA considers projects under one of four categories of projects. The categories take into account the size, scope and impacts of the proposal on natural hazards and the landscape. They are: Major, Large, Standard and Small Projects.

- **Major Projects** – Includes activities such as multiple residential units or blocks, institutional and commercial buildings, new infrastructure, major fill activity (greater than 2000m³) and channelization alterations greater than 500m.
- **Large Projects** – New single residential development, replacement infrastructure, foundation reconstructions, fill activity between 500-2000m³.
- **Standard Projects** – Additions, auxiliary buildings or structures less than 1000ft², fill activities 100-500m³, boathouses.
- **Small Projects** - Auxiliary structures less than 20m², fill activity less than 100m³, docks.

For consistency, NBMCA has reviewed the permit categories as outlined in section 2.2 of the Annual Reporting on Timelines Template document and determined how NBMCA categories fit with those in the reporting template.

Generally Major and Large Projects involve significant staff involvement and require more complex technical reviews and supporting reports, such as engineering reports or environmental impact studies. This would fall under the Annual Reporting on Timelines Major applications category.

NBMCA's standard project category generally covers projects with a lower level of risk, not typically within the hazard but within the allowance and impacts to the hazard are small. This would fall under the Annual Reporting on Timelines Minor applications category.

The Small Project category covers activities that are very minor in nature and would have limited impact on the hazard. This would fall under the Annual Reporting on Timelines Routine category. The following table summarizes all Section 28 permits issued since January 1, 2023, through to December 31, 2023.

North Bay-Mattawa Conservation Authority	Number of Permits Issued Within Policy and Procedure timeline		Number of Permits Issued Outside of Policy and Procedure Timeline		Reason for Variance from Policy and Procedure (Optional)	
	Major	Minor	Major	Minor	Major	Minor
	25	75	0	0		
	Number of Permits Issued Within CO Guideline timeline		Number of Permits Issued Outside of CO Guideline timeline		Reasons for Variance from Guidelines (Optional)	
	Major	Minor	Routine	Major	Minor	Routine
	25	16	57	0	2	0

A total of 100 permits have been issued since January 1, 2023. All but two permits have been issued within the CO Guidelines. The two permits issued outside of the CO Guidelines were due to an extended vacation. Applicants were aware of the delay and deemed the timelines acceptable.

Recommended CO Timelines for High Growth CAs

Follow-up from pre-consultation meeting:

Major permit applications: within 14 days of pre-consultation meeting.

Minor permit applications: within 7 days of the pre-consultation meeting.

This will include confirmation of whether the application is considered major or minor, if the application is complete.

Confirmation that the application has been received and deemed complete or incomplete:

Major permit applications: within 21 days of the application being received.

Minor permit applications: within 14 days of the application being received.

Routine permit applications: within 10 days of the application being received.

Completed review and issuance of DIA permit:

Major permit applications: within 28 days of receiving completed application.

Minor permit applications: within 21 days of receiving completed application.

Routine permit applications: within 14 days of receiving completed application.

In addition to the above permit numbers NBMCA is responsible for reporting on permit timelines for the Section 28 program.

Recommendation:

THAT the members receive and approve the report as presented.

Recommended Resolution:

THAT the Planning and Development and On-site Sewage System (OSS) member's report, *Fourth Quarter Review 2023*, is received and appended to the minutes of this meeting.

DATE: January 8, 2024

SUBJECT: Report on Development, Interference with Wetlands and Alterations to Shorelines
and Watercourses Permits

Background:

Section 28 of the *Conservation Authorities Act*, and subsequently Ontario Regulation 97/04 empowers each Conservation Authority to establish their own regulation to prevent the loss of life and property due to flooding and erosion, and to conserve and enhance natural resources. On May 4, 2006, the North Bay-Mattawa Conservation Authority (NBMCA) received its regulation entitled the Development, Interference with Wetlands, and Alterations to Shorelines and Watercourse Regulation (Ontario Regulation 177/06). This regulation will continue to be used as the tool by which the NBMCA manages issues related to development in natural hazard areas including areas with floodplains, wetlands, and steep slopes. Within this regulation, a permit may be given by an Authority for development applications within the Authority's jurisdiction for:

28(1)(b) prohibiting, regulating or requiring permission of the authority for straightening, changing, diverting or interfering in any way with the existing channel of a river, creek, stream or watercourse, or for changing or interfering in any way with a wetland;

28(1)(c) prohibiting, regulating, or requiring the permission of the authority for development if, in the opinion of the authority, the control of flooding, erosion, dynamic beaches or pollution or the conservation of land may be affected by the development (Conservation Authorities Act, R.S.O. 1990, Chapter C.27).

On February 8, 2013, the amended Ontario Regulation 177/06 came into effect. These amendments were approved by the NBMCA Board of Directors on December 19, 2012. One of the amendments that was included, and which was approved by the NBMCA Board of Directors, included the delegation of approvals of permit applications to the following designated employees:

- Chief Administrative Officer, Secretary-Treasurer
- Director, Planning & Development

As such, this Board Report is being presented to the NBMCA Board of Directors for information purposes.

Analysis:

One new permit has been issued by the Conservation Authority since the previously approved minutes as per the policies, procedures, and guidelines of the NBMCA under Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation. A table summarizing the details of this permit is attached to this report.

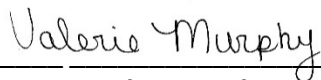

The newly issued permit was for the alteration and addition to an existing dwelling along Chippewa Creek.

Recommendation:

THAT the members receive and approve the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Permits as presented.

Recommended Resolution:

THAT the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Permits report is received and appended to the minutes of this meeting.

DATE: January 24, 2024

SUBJECT: Appointment of Auditor

BACKGROUND:

A Request for Proposal (RFP) for Audit and Tax Services was issued in early January 2024 through Bids and Tenders and was taken by two accounting firms, MNP and PricewaterhouseCoopers (PWC). The anticipated term of the contract is for two years to allow for continuity as NBMCA transitions to meeting the requirement set out in the Conservation Authorities Act. Proposals were to be received no later than 4:00 p.m. on January 12, 2024. NBMCA's current account firm, BDO Canada, opted not to submit a proposal due to time constraints.

ANALYSIS:

NBMCA received a completed submission from MNP. Their proposal was reviewed by Assistant Manager, Finance, Aaron Lougheed, Director, Water Resources, David Ellingwood, and CAO, Secretary Treasurer, Chithra Gowda. The proposal received a consensus score of 74/100.

Below is a table outlining the fees for proposed services over the anticipated two-year term.

Service	FY 2023	FY 2024
Meetings with NBMCA Staff	\$1,600	\$1,700
Presentation at NBMCA Board Meeting	\$1,300	\$1,400
Completion of Annual Audit and Reporting	\$19,300	\$20,300
Completion of T3010	\$1,000	\$1,100
Assessment of Impact of PSAS Changes	\$2,000	\$2,200
Disbursement Charge	\$1,260	\$1,335
Total before HST	\$26,460	\$28,035

RECOMMENDATION:

Staff recommend awarding MNP the Auditing and Tax Services to be provided to NBMCA for the next two fiscal years.

RECOMMENDED RESOLUTIONS:

THAT MNP be appointed as auditor for the Conservation Authority for fiscal year 2023.
