Attention Frank Loeffen, Fire Chief

Neil and I want to thank you and your team very much for your response to our house fire. We really had a front row seat to see our East Ferris fire department in action with the challenges of winter weather and lake water access for more water.

I personally appreciated you speaking with the insurance agent when I was obviously shook up by it all. We would like to show our appreciation with pizza for everyone at your next get together. I understand from the staff at the Corbeil municipal offices you meet every Thursday. If dessert and coffee is more to everyone's liking, we can do that instead.

Can you confirm please that you will be meeting this Thursday April 4th and let me know what time we can bring the food and also how many people you usually have in attendance?

Also as a point of information we ran into our neighbours the Millers and they told us they had their generator transfer switch fried by the power surge as well as the surge protector on their fuse panel. Their house is the driveway behind ours.

This seems excessive damage for a power surge - should the transformer not have tripped?

Anyways, thank you again for all your hard work at the scene and behind it!

Christine & Neil Hildreth
