### **AMO partners with occupational health and safety service provider**

May 24, 2019 – Toronto and Markham, Ontario: The Association of Municipalities of Ontario (AMO) is pleased to partner with 4S Consulting Services Inc. (4S) to offer members health and safety training and consulting services, including a comprehensive online management system, at exclusive pricing.

The partnership with 4S will help municipal governments continue to build an effective Occupational Health and Safety (OHS) program that improves productivity, reduces costs, and creates a safer workplace.

4S takes an approach that engages all employees, from senior management to frontline workers, in building a strong workplace safety culture. Its online platform provides a comprehensive way to easily track and manage all employee training, workplace incidents, and various procedures and compliance checklists.

"We've partnered with 4S because they offer tools that will help governments better manage health and safety requirements in the workplace," said AMO President Jamie McGarvey. "At a time when every tax dollar must be stretched as far as possible, this system makes it easier to track and maintain compliance with provincial legislation and regulations."

"At 4S, we strive to ensure our clients embrace health and safety as part of their organizational culture, so it is an integral part of the operations," said Sabesh Kanagaretnam, CEO, 4S Consulting Services Inc. "As an OHS partner, AMO members will benefit from the products and services that have helped several municipalities to build and manage safety programs easily and effectively while improving productivity."

This is the latest of several AMO partnerships aimed at helping municipal governments access services that are tailored to Ontario municipal needs and that help improve efficiency at special pricing for AMO members.

### **About AMO**

AMO is a non-profit organization representing almost all of Ontario's 444 municipal governments. AMO supports strong and effective municipal government in Ontario and promotes the value of municipal government as a vital and essential component of Ontario and Canada's political system.

### **About 4S Consulting Services Inc.**

A Markham-based Canadian advisory firm, 4S has been in the business of providing innovative occupational health and safety company products and services for 15 years. 4S is the only workplace safety services provider that helps its clients in building a strong and sustainable safety culture. This is done through three major pillars – online safety management system, consulting, and training.

The strong methodology of 4S not only helps municipalities and companies get into compliance, but also ensures that they continue to build a safe workplace, and stay in compliance. 4S helps companies protect their employees with a "live" occupational and safety management program that keeps their OHS program and training requirements current as regulations are updated, and staff and business needs change.
