Mayor and Council
East Ferris ON

Dear Mayor and Council,

It was encouraging to see Bell Canada's presentation to East Ferris Council, on Dec 14, 2021, regarding their fibre internet expansion project plans. At the Council meeting, Mr. Henderson stated that he hoped to be invited back in six or eight weeks to present an update which would include signed and sealed agreements.

As you are aware, the need for high-speed internet access in East Ferris has not diminished over the past few years and although it was nice to hear of the government's commitment last August, residents will only be properly served when the promised fibre links are able to deliver access.

We would appreciate your assistance again in requesting an update from Mr. Henderson at Bell Canada with the details of the fibre rollout and the timeline for doing so in our municipality.

Thank you for your continued support in improving internet access in East Ferris.

Yours truly,

Michael Blair
Spokesperson
